**Sim Mistry**  
Photographer

## Profile

With nearly 10 years of experience taking and manipulating photos it is my over-riding passion and the primary focus of my creative output. The challenge of ensuring that I meet the specifications of my clients' brief is both stimulating and satisfying, due to the unique nature of every assignment. With a background firmly rooted in both photography and graphic design, drawing on them both separately and in unison gives me a deeper understanding of how to take an exceptional picture, incorporating the desires and designs of the client whilst simultaneously fulfilling its artistic purpose.
